

Mathematical Symbols

Mathematics is the study of numbers, shapes, and patterns.

Below there are some mathematical characters. How many can you identify?

				
Approximately equal	Decimal point	Much less than	division - fraction	golden ratio
				
Cube root	Brackets	Not equal	Less than or equal to	Omega
				
Infinity (lemniscate)	equivalent	Divide (obelus)	Multiply	Lambda
				
Remainder calculation	Minus - plus	Square root	Parentheses	Greater than or equal to
				
per-mile	Less than	Plus Sign	Minus Sign	divide
				
parts Per-million	Percent	pi constant	Plus - minus	Greater than
				
Equals	Much greater than	Therefore
