

## In Close-up

Can You Identify Everyday Things in Close-Up? Your task is simple: figure out what each of these 20 objects is before your brain overthinks it. Some will be easy; others will feel almost impossible.

|                                                                                     |                                                                                     |                                                                                      |                                                                                       |
