Islands of Great Britain

About 200 inhabited islands make up Great Britain. Britain is an island, not a country and is the world's ninth-biggest island.
How many of Britain's surrounding islands can you accurately match from the list of names?
In the provided map graphics, the creators drew the pictured islands roughly to scale with one another to help you judge their relative sizes.

			
Skye, the second-largest island in Scotland	Canvey Island, an island in the Thames Estuary	Isle of Wight, the largest island in England	Isle of Mull, the second-largest island of the Inner Hebrides
